

# Leading the Way in Labeling

## AUTOSERT™ – A COMPLETE FAMILY OF HOT MELT GLUE OUTSERTERS FOR SIDE OR TOP APPLICATIONS

Superior Quality  
Labeling Solutions

# Pressure Sensitive *applying excellence* Labelers

### Model 326 AUTOCOLT IV

The labeler offers the ultimate in versatility, as well as servo-driven precision. It handles a variety of container shapes and label configurations at speeds up to 250 cpm, with a wide array of options available. The reputation of this labeler has been for robust construction and accurate and reliable operation over its long life.

- Completely enclosed frame
- Ideal for pharmaceutical applications
- Fully integrated label inspection system
- Servo-driven label dispenser
- State-of-the-art Rockwell PLC controls
- Optional outsert applicator and feeder
- Speeds up to 250 cpm

The system is easy to navigate, with large operator interface screens for quick changeovers.

### Model 326 TRUNNION

Heavy duty and accurate pressure sensitive labeler for pharma and ophthalmic applications.

- Servo-driven trunnion roll system with in/out adjustment accessible from the front of the labeler
- Swivel-mounted touch screen HMI controls
- Available fully integrated label inspection system
- Speeds up to 300 cpm

### Model 277 SIDESERT™

- Width of outserts: 1" to 2.75" (25-70mm)
- Height of outserts: 1.125" to 4" (29-102mm)
- Thickness of outserts: 0.125" to 1.5" (3-38mm)
- Speeds up to 280 cpm

Available Option:  
Carton feeder

### Model 277 TOPSERT™

- Width of outserts: 1" to 3" (25-76mm)
- Height of outserts: 1.125" to 3" (29-76mm)
- Thickness of outserts: 0.125" to 0.75" (3-19mm)
- Carton feeder
- Bottle height: 2" to 8" (51-203mm)
- Speeds up to 280 cpm

**NJM Packaging** – your single source supplier for quality labeling solutions offering a complete portfolio of labelers to handle applications from stand alone print-to-loop dispensers to fully automatic mid and high speed labelers complete with literature applicator and inspection systems.

### Model 334 CHARGER High speed mechanical labeler for multi panel labeling

- Easy access product database
  - State-of-the-art Rockwell PLC controls
  - Comprehensive machine vision systems
  - High speed operation up to 450 cpm
- Available as a standard flag-on roll-on; trunnion roll; redundant labeling; oscillating pressure station; and labeler with outsert applicator and feeder

A Century of Packaging Expertise

# Model 426 AUTOCOLT

All new state-of-the-art high speed labeler

## Model 426 AUTOCOLT

For high speed servo multi panel labeling, with optional outserting

- Fully enclosed frame and protective guarding
- Ideal for pharmaceutical applications
- Fully servo driven with Rockwell Kinetix & Control Logix PLC
- Separate electrical box for easy access
- Speeds up to 300 cpm

### Available Options:

- Glue sideserting and/or glue topserting
- All new high speed 3 panel servo oscillating pressure station
- Full machine vision inspection
- Continuous motion thermal transfer printer
- All new servo free loop vacuum box system

## A Century of Packaging Expertise

Also offering a complete line of Print & Apply labelers with RFID tagging capabilities. This benefits customers packaging Pharmaceutical / Nutraceutical / Vitamin and Personal Care Products

applying excellence

## Model 130 BRONCO

For wrap around front & back multi panel applications

- Open-frame design
- PLC Controls
- Swivel-mounted touch screen HMI controls
- Servo-driven label dispenser
- Speeds up to 200 cpm

## Model 126 TROTTER

For wrap around front & back multi panel applications

- Servo-driven label dispenser
- Stainless steel open frame design
- Stainless steel raised-bed conveyor
- PLC controls
- Label registration sensor
- Rewind spindle
- Touch screen HMI controls
- Speeds up to 120 cpm

## Model 120 MINICOLT

Compact wrap around labeler for round containers

- Raised bed stainless steel conveyor
- User-friendly control panel
- 14" diameter label spool
- Drum wrap-around
- Up to 100 cpm

## Model 251 LABELER

For flexible roll up labeling applications

- Servo motor technology
- Horizontal or vertical labeling
- Roll-up base
- Portable stand or integrated on labeling machine
- Speeds up to 1400 inches or 35.5 meters/minute

## Model 400 FINAL TOUCH Print & Apply

For heavy duty long life print & apply applications

- Allen-Bradley 550 touch screen operator interface & PLC Controls
- Smart rewind system
- Choice of printers
- RFID tagging capable
- Ideal for cases, cartons and bag labeling
- Speeds up to 50 cpm
