COTTON INSERTER FOR  
PHARMACEUTICAL, NUTRACEUTICAL BOTTLES

Heavy duty construction and robust design characterize Cottoners from NJM Packaging. Operation is simple yet precise, with a guillotine tearing device as standard equipment.

NJM Packaging, a ProMach product brand in the Pharma Business Line, is a trusted automated packaging systems manufacturer, integrator, and support resource. We offer a broad range of technology, specializing in the needs of pharmaceutical, nutraceutical/vitamin, personal care and contract packagers.

*A compact footprint makes our cottoners easy to incorporate into your particular packaging layout.*

# Cottoner CL-200

The Model CL 200 fully automatic cottoner inserts a predetermined length of cotton, rayon or polyester coil into containers. Robust, heavy duty construction means it will be accurate and reliable throughout its long service life. At the same time, its compact footprint lets the unit seamlessly become part of your packaging operation.

Standard features include two cotton insertion heads, a patented guillotine tearing device, PLC control, and the option of a missing cotton and wisp detection.

## FEATURES & BENEFITS

- Heavy duty construction
- PLC control
- Spring-loaded cotton drive rollers
- Conveyor
- Speeds up to 200 cpm
- Two-station cotton insertion heads\*\*
- Guillotine tearing device\*\*

# Cottoner CL-110

The Model CL-110 fully automatic Cottoner inserts a predetermined length of cotton, rayon or polyester coil into containers. Robust construction means it will be accurate and reliable throughout its long service life. At the same time, its compact footprint lets the unit seamlessly become part of your packaging operation.

Standard features include two-station cotton insertion, a precise guillotine tearing device, PLC control, and the option of a missing cotton and wisp detection.

## FEATURES & BENEFITS

- Heavy duty construction
- Handles cotton, rayon and polyester
- Counter for 1, 2 or 3 shots of cotton
- Automatic machine stoppage when there is no cotton
- Speeds up to 110 cpm
- Two-station cotton insertion heads \*\*
- Guillotine tearing device \*\*

\*\*Patented two-station cotton insertion and guillotine tearing device (US Patent No. 6,799,412)

The world's proven, trusted, single-source provider of automated packaging machinery for pharmaceutical, nutraceutical, and personal care products, NJM offers both stand-alone solutions and integrated systems for packagers of solid dose and liquid pharmaceuticals, biopharmaceuticals, vitamins, and food supplements. As part of the ProMach Pharma business line, NJM helps our customers protect and grow the reputation and trust of their consumers. ProMach is performance, and the proof is in every package.
